**6+**

## *How To Play*

# **The A to Z Game**

## **The A to Z Game - Version One**

1. Choose your location. This can be a shopping mall, a zoo, a museum or almost anywhere else where you can find a wide variety of items (including longer journeys by train, car, bus, plane, or any combination of these vehicles).
2. Try to find an item beginning with each letter of the alphabet. You can be literal, or use your ingenuity, but each item must be real. The game ends after a specific period of time (usually 15 minutes), when your time at your chosen location is over, when your journey ends, or when the first person completes their list (but make sure you decide which one before you start).
3. Score 5 points for each answer if someone else also got it. Score 10 points for your answer if you are the only person who got it. Finally, score an extra 25 points if you complete the whole list in the allotted time. The winner is the person with the highest score.

## **The A to Z Game - Version 2**

1. Choose your location. This can be a shopping mall, a zoo, a museum or almost anywhere else where you can find a wide variety of items (including longer journeys by train, car, bus, plane, or any combination of these vehicles).
2. When on a journey, try to spot words on signs and buildings that start with each letter of the alphabet and write them on the score sheet. You can be literal, or use your ingenuity, but each item must be real. The game ends after a specific period of time (usually 15 minutes), when your time at your chosen location is over, when your journey ends, or when the first person completes their list (but make sure you decide which one before you start).
3. Score 5 points for each answer if someone else also got it. Score 10 points for your answer if you are the only person who got it. Finally, score an extra 25 points if you complete the whole list in the allotted time. The winner is the person with the highest score.
